

Convert the following to mixed numbers. Make sure you draw them in the boxes to double check your answer.

$$\frac{14}{4} = 3\frac{3}{4}$$

$$\frac{3}{2} = 1\frac{1}{2}$$

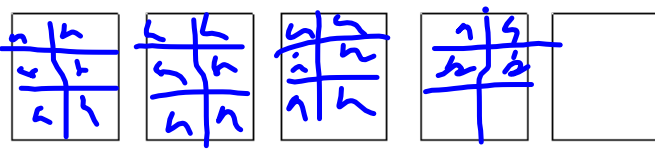

$$\frac{13}{3} = 4\frac{1}{3}$$

$$\frac{13}{5} =$$

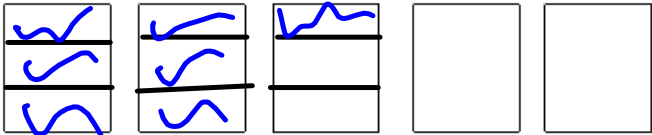

$$\frac{18}{4} =$$

$$\frac{20}{6} =$$

Convert the following to improper fractions. Make sure you draw them in the boxes to double check your answer.

$$3\frac{4}{6} = \frac{22}{6}$$

$$3\frac{4}{6} =$$

$$2\frac{1}{3} = \frac{7}{3}$$

$$1\frac{3}{4} =$$

$$4\frac{3}{10} =$$

$$1\frac{3}{12} =$$
